

Environmental policy

Sepson AB's environmental work is based on the laws and regulations covered by our business, as well as our customers' requirements and expectations.

In order to continuously improve and reduce our environmental impact, Sepson AB strives for efficient and resource-efficient operations, where delivered products meet customer requirements and wishes. Our activities shall be carried out in such a way as to protect the environment and employees' health.

It is about:

- Reduce residual and waste products from operations and its subcontractors by preventing the generation of, and recycling waste.
- Continuously work for improved and simplified handling of chemicals and waste and ensure that environmentally hazardous waste is handled safely both with us and our subcontractors.
- All employees have the right to transparency, information, equipment and education to fulfill their task within the environmental policy framework. The right also entails an obligation to participate in environmental promotion activities.
